Unleash Your Potential with an International Sustainable Project Management Certification

Why Choose Our Training?

This international Credential as a Certified Green Project Manager – Basic (GPM-b) is the ultimate learning pathway for professionals looking to excel in sustainable project management.

Course Details:

1. Sustainable Project Management: GPM-b Certification

- **Duration:** 3 Days
- **Format:** Virtual
- **Key Learnings:**
 - Embed sustainability across project lifecycles
 - Create eco-friendly deliverables
 - Measure and mitigate environmental impacts
- **Certification:** Includes exam for GPM-b certification
- **No prerequisites required**

What You Will Gain:

- **Career Advancement:** Stand out with internationally recognized certifications highlighting your dual expertise.
- **Practical Skills:** Engage in practical exercises, real-world scenarios, and activities that prepare you for immediate application in your professional life.
- **Flexible Learning:** Choose from flexible training options to fit your schedule and preferred learning style.

Who Should Enroll?

This program is perfect for project managers, manufacturing and supply chain logistics professionals who aim to lead their organizations with a sustainable and progressive mindset.

Ready to Transform Your Career?
