

STUDENT SPOTLIGHT: Stacey Bevill, BCC, ACC, MPM® President, Golden Career Strategies

Courses: Lean Six Sigma Black Belt and Leadership & Management Certificate

Stacey Bevill, a Greenville Technical College graduate who owns Golden Career Strategies, turned to the continuing education division for specialized training in Lean Six Sigma and Business & Leadership during the journey of realizing her own professional goals.

“I was awarded the Workforce Scholarship Grant, which allowed me to take continuing education classes from top-notch instructors,” Bevill said. “The classes enabled me to better serve my clients, helped me prepare for my future and ultimately led to the life-changing opportunity of becoming the owner and president of Golden Career Strategies.”

Bevill has achieved her goal of working with companies as a consultant and coach, providing career transition services, leadership and organizational development, as well as operational excellence.

“I give my full endorsement for Greenville Technical College. In the early nineties, I attended Tech. I received a solid education that thoroughly prepared me for getting my BS degree and gave me a good foundation in being an entrepreneur for over 20 years.”

ISO & AUTOMOTIVE STANDARDS, TOOLS & AUDITING

Whether starting out or experienced, we offer high-quality standard (ISO, IATF, other), auditor (internal, supplier or lead auditor) and update training for employees, managers and auditors. Greenville Technical College also provides quality, automotive core, problem solving, and other tools and methods for meeting management system

requirements and managing and improving your business processes. Internal auditor training typically involves conducting actual internal audits in a local company.

For more information or customized services call **(864) 250-8344** or visit www.gvltec.edu/EDCT/business_leadership/.
